Platform for Good People

- **Trust** is the bigger driver for change
- NOAH plans with this initiative to bring **transparency** and **direct accessibility** to the sustainability sector
- The functionality is to provide information, connect teams all over the world and give access to funding

Ignorance to Digital

- Politics is communication. Internet is communication 24/7 globally, text, speech and video

- National **voting participation around or below 50%** (why don't we vote digitally with **ScytI.com** for example?)

Democracy Deadlock Problems Rising

- **Political deadlocks** everywhere (US, Israel, Germany, UK, Italy, and more countries)

- **Environmental** concerns, i.e. plastics, fires, global warming and dying of species are constantly rising

Teamwork

- No organisation or person can change the world on its own
- There is little global working **collaboration** between the **academic**, **public** and **private** sector
- **Digital tools connecting** the most innovative, powerful and wealthy people is first step to drive change

Solution

- The platform will **find**, **categories**, **rate** and **publish** to changemaker (sustainable entrepreneurs) on the platform
- Users are able to research, engage and contribute to organisations categorized by global challenges
- Third parties **research** and **KPIs** around key issues for society are rounding up the offering
