BUSINESS OVERVIEW

At 360, we believe that all small and medium-sized enterprises should have access to competitive prices when marketing their products and services – just as if they were large companies, and most importantly, without ever compromising quality.
360 was born in September 2013. It was established as a B2B Managed Marketplace, based on technology resources designed to empower SMBs to further their businesses, by democratizing their access to personalized and customized products.
Currently operating in 21 countries, 360 aims to be the world leader in marketing products and services for SMB's. With an end-to-end intelligent marketplace, factories, designers and proprietary technology merge to deliver this one-stop-shop. SMB's will be able to personalize all products at a disruptive pricing and convenience.
Our business is based on the fabless model, meaning that we do not have our own production, harnessing the existing production capacity of our suppliers instead. We have access to a wide network of local partners, which allows us to secure a value proposition that is more cost effective than the ones from our competitors. In this context, 360imprimir manages the bids submitted by the different partners, so that we always find the most competitive offer for each customer (best value for money). Furthermore, we guarantee short delivery times and very competitive logistic costs in each and every order.

Catherine Faiers
COO

PRESENTATION TOPIC

A Digital Future for Car Buying

SHORT BIOGRAPHY

Catherine joined Auto Trader in August 2017 and was appointed as Chief Operating Officer in May 2019. Catherine is responsible for the day-to-day operations of Auto Trader's business. She is also focused on guiding the group's strategy and development.

Prior to this, Catherine was Chief Operating Officer at Addison Lee where she was responsible for all aspects of operations with a team of over 750 employees, management of the base of 6,000 driver partners, fleet logistics and customer operations. She was previously Corporate Development Director at Trainline with responsibility for strategy, change management and M&A and a Director at Close Brothers Corporate Finance responsible for the origination and execution of M&A and Debt Advisory mandates in the technology sector.

KEY CORPORATE FACTS

- Headquarters: Manchester, United Kingdom
- Active Markets: United Kingdom
- Employees: 501-1,000
- Ownership: Corporate Investors
- Total Funding: N/A

BUSINESS OVERVIEW

Auto Trader Group plc is the UK’s largest digital automotive marketplace with 49 million cross platform visits each month and over 90% prompted brand awareness with consumers. The audience is not only large but highly engaged with a 76% share of minutes spent across automotive classified sites.

The marketplace also hosts the largest pool of vehicle sellers (listing more than 450,000 cars each day). Over 80% of UK automotive retailers advertise on autotrader.co.uk.

Our purpose is to lead the future of the UK’s digital automotive marketplace. We aim to improve the process of buying and selling vehicles in the UK, by continually evolving the ecosystem to provide a better experience for consumers, retailers and manufacturers alike.

Auto Trader is a 100% digital business. Starting life as a local classified magazine in 1977, we've grown and evolved alongside our customers. In 2013, we successfully completed the transition from a print title and became a fully digital marketplace. Our rich history gives us nearly 40...
Raffael Johnen
Founder & CEO

auxmoney is the leading credit marketplace in continental Europe. On auxmoney, private savers and institutional investors directly invest in approved borrowers of different score classes. Avoiding the bank as intermediary, auxmoney can make more favourable loans available to more people, while enabling investors to benefit from attractive risk-adjusted returns.
Launched in 2012, Azimo is an online international money transfer company that challenges the old fashioned, expensive ways of moving your money around the world. Azimo is all about lower costs, excellent exchange rates and a brilliant service. Azimo is the better way to transfer money around the world, touching millions of people's lives. Fast, simple and safe, Azimo has the largest digital network in the world, enabling customers to send money to over 195 countries from any internet-connected device.
Bench is built to help marketing teams streamline their media operations and become more agile. We help advertisers and agencies tame digital advertising by unifying their digital campaign management in one place – providing control and visibility.

**SPEAKER INFORMATION**

**Ori Gold**
CEO & Co-Founder

**PRESENTATION TOPIC**

Unifying a Complex Ecosystem

**SHORT BIOGRAPHY**

Ori Gold is the CEO and co-founder of Bench, a unique global marketing platform, where he spearheads the company’s product and strategic direction. As an engineer with a huge passion for technology, data and people, Ori has built Bench with the view of continually solving problems in the advertising and media space, empowering marketers to easily control and quickly adapt their digital advertising. Together with a talented and forward-thinking team at Bench, Ori works to ideate, problem solve, and creatively strategise ways to elevate client’s marketing.

Ori’s extensive and hands-on experience spans across both ad tech and martech, with over 12 years of international experience in the tech industry. Before starting Bench, Ori led the marketing function in APAC for eToro, the world’s largest social investment platform. Prior to eToro, Ori headed up the online media buying for high-value advertising accounts in Xertive Media, a marketing agency and display network in EMEA. This year will be the first year globally where digital is expected to overtake traditional advertising, making it a very exciting time for Ori and the Bench team to be part of this new wave of communicating with consumers.

SPEAKER INFORMATION

Jean-Christophe Chopin
Founder & CEO

PRESENTATION TOPIC

SHORT BIOGRAPHY

A creator and innovator by nature, JC is an entrepreneur who has had a strong presence in online financial services, digital insurance and stock brokerage. He has a wealth of international experience with expertise in the US as well as vast European digital and brand management knowledge. JC pioneered E*Trade Europe and Verisign in the early days of the Internet, and later went on to invest in real estate, time pieces and luxury fashion. His passion for skiing and extreme sports also led him to launch the 'Carre Neige' ski insurance within the Savoie region. Most recently, he has married his online finance expertise with his experience in design and luxury brands to create BORN, a B2B global market-network that connects design-led brands with retailers.

BUSINESS OVERVIEW

BORN is a global market network where exciting creators can showcase their brands, their products and their personal profiles. Born's community of professionals and design enthusiasts come to BORN to find, fund and share beautiful new design products. Each year, BORN celebrates the world's best creative leaders with the internationally acclaimed BORN AWARDS.

Brumbrum E-Commerce + 2 Mobility & Travel of the Future

brumbrum is the first Italian direct online car retailer of used cars and private Long Term Rental.

Founded: 2016
https://www.brumbrum.it/

See More at NOAH Connect

Francesco Banfi
Founder & CEO

Buying a Car in a Digital Age

During the car-buying evaluation process, there can be over 900 digital touchpoints (71% of which on mobile devices)*, although the purchase is ultimately done in person. In the Digital Transformation Era, the real challenge is to bring about a technological and cultural change, in order to move the behaviors and transactions, that people still perceive as exclusively offline, online.

In 2015, brumbrum was founded. It is the first online car retailer in Italy, offering services based on transparency, clear information and attention to detail aimed at both customers and products.

The cars available on the site belong to brumbrum, thus guaranteeing the best value for money and a 360° customer care service. On the digital showroom, customers can view a wide range of used and 0 km cars that have been certified and can be easily purchased online with up to 3 years warranty.

In addition to the purchase, from May 2018 brumbrum offers customers a wide range of cars through long-term rental plans, even with zero down payment.

BUSINESS OVERVIEW

brumbrum is the first Italian e-commerce of used cars and at km 0, and private Long-Term Rental; using a digital platform and innovative technologies, it allows the purchase, entirely online, of certified cars displayed in detail in the virtual showcase of www.brumbrum.it. The selected cars are in fact checked and tested by experts and photographed individually in detail to ensure a transparent and accurate display and to ensure a safe purchase away from scams and fraud. The 360° service of brumbrum includes the possibility to request a financing directly on the website, choosing among those proposed or customizing the instalment, and the management of bureaucratic procedures for the transfer of property, so that the user can experience the simplicity and practicality of a complete and professional online purchase. Like all real e-commerce, customers have 14 days from the delivery of the car to return the object of purchase and be refunded; brumbrum also offers 1000 km within which the refund includes the full cost of the vehicle, including transfer of ownership, so that every user has the opportunity to see for himself the quality and conformity of the vehicle with what viewed online. brumbrum works with commitment and passion to give the used car market a new, safe and technological image, providing customers with the advantages of e-commerce, the convenience of buying from private individuals and the quality guaranteed by dealers.

**Sachin Dev Duggal**  
Co-Founder & CEO

**PRESENTATION TOPIC**

Builder

**SHORT BIOGRAPHY**

Sachin Dev Duggal is an innovator who believes in businesses that touch lives and benefit the world at large. He believes there is a builder in all of us, and wants to enable anyone, regardless of technical know-how, to turn their ideas into real products.

As CEO of Builder, a company which uses artificial intelligence and a deep network of software development talent to build custom technology solutions, he leads a global team that is changing how software is built and managed. In a simple, user-friendly and mindful way, that transcends traditional development, Builder can help build something new and operate the technology in the cloud.

Sachin has been an entrepreneur since age 15. He took his last company Nivio, an early cloud startup, to $100M in value before exiting. His accomplishments have been widely recognized: MIT Under 35 Indian Innovator of the Year, Ernst & Young Entrepreneur of the Year Finalist, and the BBC Young Asian Achiever of the Year. Sachin also made history as one of the youngest attendees at the World Economic Forum in Davos. He holds a degree in B.Eng from Imperial College London and a degree in Entrepreneurial Master's Program from MIT.

**BUSINESS OVERVIEW**

Builder is on a mission to democratize software development by making it more accessible for everyone. Whether it's to build, run, or scale custom-software, an easy-to-navigate platform utilizes the collective knowledge of what has been created before, an assembly line of reusable features, and human-assisted AI to manage the process. The company has secured $29.5M total funding amount from Deepcore, Lakestar, Jungle Ventures and other investors.
Career Partner Group is Germany’s largest and most customer-centric provider of private higher education.

**SPEAKER INFORMATION**

**Sven Schütt**
CEO

**PRESENTATION TOPIC**
Disrupting University Education

**SHORT BIOGRAPHY**
A true education addict, Sven Schütt gained his expertise in the private, public, academic and economic sectors. Since Sven joined the Career Partner Group as CEO in autumn 2010, the company increased its intake of new students by 20 times and became Germany’s leading university, disrupting higher education.

Sven completed his PhD in Neurobiology on Learning and Development at the Max Planck Institute of Neurobiology, after graduating in physics and philosophy. He started his professional career as a consultant at McKinsey, before joining the German Public Employment Agency ("Bundesagentur für Arbeit") as a Managing Director. In this role, Sven designed and implemented the largest ever public sector reform (the so-called "Hartz Reform"). By overhauling all core processes, as well as organizational setup and digital infrastructure, the reform lead to a reduction of more than 50% of the number of unemployed people in Germany at the time of Sven’s departure.

Before he joined Career Partner, Sven was Managing Director of the Hertie School of Governance, a private University based in Berlin with a share of international students of over 50% and a very strong expansion path.

**KEY CORPORATE FACTS**

- **Headquarters**: Munich, Germany
- **Active Markets**: Austria, Belgium, Switzerland, Czech Republic, Germany, Denmark, Estonia, Spain, Finland, France, United Kingdom, Greece, Ireland, Israel, Italy, Lithuania, Latvia, Netherlands, Norway, Poland, Portugal, Russia, Sweden, Turkey
- **Employees**: 1,001-10,000
- **Ownership**: Financial Investors
- **Key Investors**: Oakley Capital Investments Limited
- **Total Funding**: N/A
- **KPI #1**: Revenue 2018 - €100m

**BUSINESS OVERVIEW**
Career Partner Group is currently the largest provider of university education in Germany by student intake, with students enrolled across different types of programmes ranging from online degree courses to on-campus studies and corporate trainings from various fields like Artificial Intelligence, Digital Business, Social Work or Psychology.

Through its unique platform-offering and customer centricity, Career Partner Group disrupts the German education landscapes with unique propositions like offering 24/7 online exams “on demand”, making studying completely independent from a specific time and location.

Career Partner Group is acting in a fast-moving environment and has experienced extraordinary growth while recording a CAGR in new students of ~50% over the past three years.
**SPEAKER INFORMATION**

**Vikram Chopra**  
Founder & CEO

**SHORT BIOGRAPHY**

Vikram is Co-founder & CEO of CARS24 - India's largest and fastest growing 'transaction led' used car marketplace. Earlier Vikram started an online furniture company called FabFurnish. Vikram has worked with McKinsey and Sequoia Capital in the past.

**PRESENTATION TOPIC**

.

**BUSINESS OVERVIEW**

CARS24 is India’s largest and fastest growing used car marketplace. CARS24 is the first and only player in India to bring 'transaction led' approach to solving used car selling resulting in disruption of the 'classifieds' way of selling a car. With CARS24, a car owner can sell their car privately and securely in less than 2 hours and get paid instantly. On the other side of the marketplace, CARS24 has tens of thousands of used car businesses who buy all these cars online via mobile auctions from anywhere in India. CARS24 has become the 'supply' side leader with over 100,000 transactions a year. It buys cars from across 15 cities and sells them across 100 cities in India. The 'supply' leadership via its unique C2B model has helped CARS24 leapfrog the existing c2c and b2c models. Building on its unique advantages, CARS24 intends to dominate the used car ecosystem including areas such as financial services, and information services.

CARS24 has raised over $100mm in 3 years since its inception, and has backing of investors such as Sequoia Capital, Apoletto (Yuri Milner’s DST partner fund), Kingsway Capital, KCK, and Exor Seed (fund backed by Fiat Family).
**SPEAKER INFORMATION**

James Hind  
Founder & CEO

**PRESENTATION TOPIC**

Become Europe's No. 1 destination for new car buying

**SHORT BIOGRAPHY**

James is the big boss of carwow, so it's hardly a surprise that cars are one of his biggest passions. He studied Finance but was put off a city career after just 2 months of trying one. He's very competitive, especially when it comes to ping pong at the office. He invented the rule that if anyone loses a game 11-0 they have to buy donuts for the entire team!

</tr>
</tbody>
</table>

**BUSINESS OVERVIEW**

carwow is the most convenient, stress-free way to find and buy a new car, at a price you can be confident in. carwow aims to solve the major pain points that buyers and dealers experience in the buying process, putting them in a more powerful position than ever before. Offering buyers crucial price confidence, a more convenient hassle free way to find and buy the car they want, and an altogether better buying experience.
Our mission is to bring transparency to the opaque and chaotic markets by building the cleanest and most complete real estate database with applications on top to serve all real estate market segments and enable new Proptech companies.

We have been developing proprietary AI technology and extensive data operations to automatically index, clean, classify and match duplicates of millions of property listings from thousands of different estate websites in different languages with inconsistent information, daily. The result is the cleanest and most complete database of property and market changes.

Since launch in 2018 CASAFARI works with all major brands in real estate e.g. JLL, Savills, RE/MAX, Century21, Keller Williams, Fine&Country, Engel&Wölkers, Coldwell Banker, Sotheby’s International Realty, Christie’s, Round Hill Capital, etc.

BUSINESS OVERVIEW

Clicktale taps into the wisdom and behavior of millions of visitors so that businesses can deliver the best digital experiences to drive amazing business results. By synthesizing complex behavioral patterns based on millisecond-level actions such as hovers and scrolls, we enable businesses to interpret their customers’ digital body language and understand intent. The pioneer in Experience Analytics, Clicktale marries cognitive computing, machine learning and psychological research to automatically surface issues and answer questions that keep executives up at night.
Colendi, a practical, modern solution for real-time credit assessment that leapfrogs the outdated traditional approach to assessing creditworthiness. Colendi uses decentralized intelligent credit scoring and fraud detection technology to accurately determine appropriate credit levels for banked and unbanked users alike. Through its fast-growing global network of financial service and retail partners, Colendi makes microcredit, peer-to-peer lending and installment shopping an easy, real-time reality for everyone, everywhere. With propriety technology to provide a secure and democratic service for the fintech world and transforming the definition of banking.

CEO & Founder

**PRESENTATION TOPIC**

Fighting Financial Crime with AI & Machine Learning

**SHORT BIOGRAPHY**

Charles Delingpole is CEO of ComplyAdvantage, a technology company focused on wiping out financial crime using Machine Learning. As CEO, Charles leads the product development and growth of the company. His passion for the issue came from his time as the MLRO of a previous startup he founded when he realized how inefficient processes around money laundering are.

Over 99% of money laundering is successful, ComplyAdvantage is working to stop it completely. Founded in 2014 with offices in London, New York, Singapore, and Cluj, ComplyAdvantage work with over 350 firms across 45 countries. Charles set up his first company, The Student Room Group, now the world’s largest student discussion forum when he was 16.

**BUSINESS OVERVIEW**

Compliance doesn't have to be painful. At ComplyAdvantage we give businesses the financial crime insight they need to take control.

Our data and technology help you to uncover the risk of who you’re doing business with, using the world's only dynamic global risk database of people and companies. Our suite of configurable cloud services integrates seamlessly to help automate and reduce the frustration of complying with Sanctions, AML and CFT regulations.

Founded in 2014 with offices in London, New York, Singapore, and Cluj, ComplyAdvantage work with over 450 firms across 45 countries. This January, ComplyAdvantage raised $30 million in our Series B fundraising round led by Index Ventures and joined by Balderton Capital.

Coty, founded in 1904 in Paris, is a global leader in beauty. The company has net revenues of $4.4 billion for the fiscal year ended June 30, 2015. Coty is a pure play beauty company with a portfolio of well-known fragrances, color cosmetics, and skin & body care products sold in over 130 countries and territories. Coty's product offerings include such global brands as adidas, Calvin Klein, Chloé, Davidoff, Marc Jacobs, OPI, philosophy, Playboy, Rimmel, and Sally Hansen. Innovation is in their bloodstream. They capture trends sooner, thereby creating enduring brands that speak to the aspirations and lifestyles of today's customers. Driven by passion, creative freedom, and an entrepreneurial spirit, Coty has built a unique portfolio of beauty brands that have produced some of the strongest consumer franchises in history. They believe good ideas can come from anywhere, and this entrepreneurial culture drives growth and raises the standard of the industry overall. They encourage people to speak their minds, and they foster a democratic spirit and a "no suit and tie style" throughout their diverse organization. Their team is made up of forward-thinking, fast-moving leaders who embrace disruptive creativity. Their motto is Faster. Further. Freer., as they believe there are no limits to innovation. It's in their creative DNA to recognize that innovation results from a journey sparked by the sharing of ideas, shaped by imagination and fueled by collaboration. They are truly a global player with about 9,000 employees, subsidiaries in over 40 countries and our products are sold...

BUSINESS OVERVIEW

CrossLend is a B2B FinTech company with a mission to make the European debt ecosystem more efficient, transparent and profitable. We provide securitisation as a service, transforming loans into notes on a portfolio or 1 loan:1 note basis. Our innovative securitisation setup allows investors to build diversified portfolios of loans (via notes) at a pan-European level, while enjoying greater risk transparency. On the other hand, loan originators profit from flexible opportunities to scale their lending business – opening up much-needed financing avenues to small and medium-sized businesses across Europe. A win-win-win situation for all. Backed by an array of prestigious equity investors from Europe and the U.S., CrossLend plans to establish an international exchange where various forms of debt can be bought and sold.

SPEAKER INFORMATION

Kris Henri Naudts
Founder & CEO

PRESENTATION TOPIC

Culture Trip

SHORT BIOGRAPHY

Dr Kris Naudts trained as a medical doctor and psychiatrist in Belgium and began his career in academic psychiatry at the prestigious Institute of Psychiatry at King's College London. He later became medical director at a private psychiatric hospital. Kris holds five degrees - in medicine, general and forensic psychiatry and psychology, and a PhD in neuroscience. Kris founded Culture Trip to pursue his passion for entrepreneurship, culture and creativity. After several years of bootstrapping, Kris raised more than $100m in funding to propel Culture Trip into its next phase of growth. He speaks (and reads) Dutch, English, French and German. When not working, you can find him reading, travelling or in a theatre, jazz club or art gallery.

BUSINESS OVERVIEW

Curve is an over-the-top banking platform, consolidating all your cards and accounts into one smart card and even smarter app. It allows customers to supercharge their legacy banks to the 21st century without leaving their bank or topping-up. Curve offers a host of benefits to its customers; it makes all your cards fee-free when spending abroad, you get instant notifications and categorisation of spend, you can earn instant 1% cashback at the likes of Amazon, Uber, Netflix and Sainsbury’s and Time Travel enables customers to swap spend to a different card in the app for up to two weeks after the purchase was made. Curve also offers Curve Customer Protection, a policy that covers all credit and debit card payments made via the Curve card up to £100,000, giving cardholders an extra layer of protection for disputes with merchants and any unauthorised use of their Curve card. Whether you have a Curve Metal card, Curve Black card or Curve Blue card, Curve Customer Protection offers you a better level of protection in many ways - filling in the gaps that Section 75 leaves.

SPEAKER INFORMATION

Felix Schneider
CEO & Founder

PRESENTATION TOPIC

A global cruise booking platform on the rise

SHORT BIOGRAPHY

Mr. Felix Schneider founded his first company while still studying economic geography. This portal connected customers with personal trainers and was sold shortly after its establishment, yielding a return. Looking for a new business opportunity, Felix realized the potential of selling cruises online. In 2012, Felix launched Dreamlines for the German-speaking market, and it quickly expanded into international markets. Today, Dreamlines is the biggest cruise OTA outside the USA, and it is aiming for global leadership. In addition to his commitment for Dreamlines, Felix co-founded Happycar in 2013. Today, he acts as a board member for the car rental metasearch.

BUSINESS OVERVIEW

Dreamlines is a globally expanding startup specialized in selling cruises and on its way to become the #1 cruise portal in the world. Dreamlines in-house developed GDS/CRM system is the tailor-made fit for the specific cruise industry demands, improving customer satisfaction while streamlining internal processes globally. The own tour operator business is providing unique cruise packages, created by the most experienced cruise experts, exclusively available at Dreamlines.

BUSINESS OVERVIEW

Open Banking platform allows banks to offer attractive third party deposit products to their own customers through their existing accounts. As a result, banks looking for funding can gather deposits from new markets and client groups without having to set up and operate their own retail infrastructure, and depositors can access best-in-class deposit offers without having to open a new account at another bank. In this way, the platform supports a healthier banking system throughout Europe by providing an open market for deposit products, more effectively allocating resources and increasing customer benefits.

BUSINESS OVERVIEW

Matthew Crummack
CEO
BUSINESS OVERVIEW

Henkel operates worldwide with leading brands and technologies in three business areas: Laundry & Home Care, Beauty Care and Adhesive Technologies. Founded in 1876, Henkel holds globally leading market positions both in the consumer and industrial businesses with well-known brands such as Persil, Schwarzkopf and Loctite. Henkel, headquartered in Düsseldorf / Germany, has some 50,000 employees worldwide and counts among the most internationally aligned German-based companies in the global marketplace. Our vision at Henkel is to be a global leader in brands and technologies. Innovations are the basis for successfully turning this vision into reality. Innovations are of great strategic importance for Henkel, because they provide the basis for our future business portfolio. Already today, more than 30 percent of our annual sales are generated by new, innovative products introduced during the preceding three years. Persil, Purex, Pril, Schwarzkopf, Dial, Fa, Loctite, Teroson, or Ceresit – as varied as the brands and technologies from Henkel are, they have one thing in common: they are based on considerable know-how and innovative ideas. We are constantly at work to perfect our products and production processes, so that we can meet even better the needs of our customers and the consumer. Successfully.
Immobiliare.it is a mobile real estate search application, where users can browse properties from a number of countries. Immobiliare.it is the largest network of property portal websites in Italy with an audience of over 7 million unique visitors per month and more than 900,000 online ads.
iwoca use technology to disrupt small business lending across Europe.

**Founded:** 2011

[http://www.iwoca.co.uk](http://www.iwoca.co.uk)

### Key Corporate Facts

- **Headquarters:** London, United Kingdom
- **Active Markets:** Germany, United Kingdom, Poland
- **Employees:** 251-500
- **Ownership:** Founders
- **Total Funding:** €390m

### Business Overview

iwoca is transforming small business lending by offering flexible credit facilities to the millions of SMEs that are underserved by banks. Its technology-driven risk platform draws on thousands of data points to make faster, fairer credit decisions, enabling iwoca to lend a small business up to £250,000 within hours.

With 30,000 funded customers since its launch in 2012, iwoca is one of the fastest growing business credit providers in Europe. iwoca operates across the UK and mainland Europe. iwoca is a founding member of Innovate Finance, the world's first industry body for FinTech.

### Presentation Topic

**FinTech Lending Platforms**

### Speaker Information

**Christoph Rieche**

Co-Founder & CEO

Christoph Rieche is the co-founder and CEO of iwoca and a leading figure within the fintech sector. He oversees the day-to-day operations, finance and strategy of iwoca, always with an eye on the long-term vision. Christoph is passionate about helping smaller businesses to succeed and grow.

He has played a formative role in the evolution of technology-driven financing and established iwoca as a leading fintech lender in Europe.

Prior to founding iwoca in 2011, Christoph studied at HEC Lausanne and the London School of Economics before he became a VP at Goldman Sachs within the Fixed Income, Currencies and Commodities division.

**BUSINESS OVERVIEW**

Founded in 1999 and operating as Turkey's first and biggest online recruitment platform, Kariyer.net brings together jobseekers and employers through use of cutting edge technologies. Aiming to be an ally to all the individuals in Turkey throughout their career journey, Kariyer.net hosts over 20 million resumes of 17 million candidates, and has served over 96 thousand customers over the course of last 20 years.

Kariyer.net was acquired by Ilab Ventures in 2006, a Turkish VC with various investments across different internet categories. Bringing blue collar jobseekers and employers together, Kariyer.net's İşin Olsun application is Turkey's first and biggest free of charge blue collar job and employee search platform.
Klarna was founded in 2005 in Stockholm, Sweden with the aim of making it easier for people to shop online. In the last 14 years, technology has evolved, excited, and transformed the world around us, yet our mission remains as relevant as ever – to make paying as simple, safe and above all, smooth as possible.

Klarna is now one of Europe's largest banks and is providing payment solutions for 60 million consumers across 130,000 merchants in 14 countries. Klarna offers direct payments, pay after delivery options and installment plans in a smooth one-click purchase experience that lets consumers pay when and how they prefer to.

When the company acquired SOFORT in 2014 the Klarna Group was formed. Klarna is backed by investors such as Sequoia Capital, Bestseller, Permira, Visa and Atomico.
Knotel is a flexible office platform that gets, builds and runs and optimizes space for companies. We provide workplaces to some of the world’s largest companies and continue to scale globally to do so. Knotel is fast, flexible, full-service & great value.

Founded: 2016

https://www.knotel.com/

Edward Shenderovich
Co-founder

Space: The Final Frontier. Shenderovich’s speech will explain how Knotel provides the workplace of the future for the world’s largest companies, and how we are scaling internationally to achieve it.

Edward is the co-founder and chairman of Knotel. Prior to Knotel, he was the founding partner of Kite Ventures and an early investor and board member at Delivery Hero (DHER.DE), Plated (acquired by Albertsons) and Tradeshift. He was also previously a co-founder of SUP Media and Merchanty, and had worked for Silicon Valley Bank. Shenderovich graduated from UC Berkeley.

Knotel offers workplace solutions designed to quickly and easily adapt to the needs of a wide range of office users from start-ups to globally recognized enterprise companies. Knotel’s office leases for clients are shorter term than the traditional office lease and office operations are managed behind the scenes by Knotel staff, allowing decision-makers and employees to focus on their core business. Leveraging a team of experts in real estate brokerage, workplace experience and design, Knotel is equipped to identify and brand space for clients’ unique corporate culture and business objectives within 30 to 60 days.

Knotel was named a Business Insider Top 50 Startup and New York’s Hottest New Workspace Model by AllWork. To learn more, visit knotel.com.
Johannes Schildt
Co-Founder & CEO

Short Biography
Johannes is the CEO and co-founder of KRY - the largest provider of digital healthcare in Europe. In Europe, KRY is expanding under the name LIVI. KRY/LIVI pioneered digital healthcare services by allowing people in need to see a medical doctor or a psychologist via on-demand video consultations. By putting the power of access to healthcare in the hands of patients KRY/LIVI is challenging the way society provides primary care at its core. “Our goal is to help as many patients as possible by providing easy and equal access to high quality healthcare. What we are witnessing is a paradigm shift and this is only the beginning.” Johannes has been named one of the 2018 “30 under 30” in Europe by Forbes Magazine. He is an inspirational lecturer on the future of healthcare and how to make that future a reality through action.

Key Corporate Facts
- Headquarters: Stockholm, Sweden
- Active Markets: Spain, France, Norway, Sweden
- Employees: 251-500
- Ownership: Financial Investors
- Total Funding: €91m

Business Overview
KRY/LIVI allows you to consult a qualified health professional within minutes, via your smartphone or tablet. Through digital technology, KRY/LIVI provides equitable access to high-quality health care—at the patient’s own convenience. To date, KRY/LIVI has helped hundreds of thousands of patients in the Nordics alone. Backed by some of Europe’s most renown investors, including Accel and Index Ventures, KRY/LIVI is determined to lead the field of digital health, and fast forward the future of healthcare. Headquartered in Stockholm, Sweden, KRY/LIVI operates in a number of European countries already, and with further international expansion on the agenda. KRY/LIVI's 200+ employees are committed to improving the world's health through innovation, one patient at a time. To learn more, visit www.livi.co.uk.
Lalafo has combined artificial intelligence and logistics to create a fully managed marketplace.

BUSINESS OVERVIEW

Lalafo is an artificial intelligence powered C2C marketplace. Lalafo has developed its image recognition technology Product DNA. Product DNA technology is used to create a frictionless selling experience.

In 2019 Lalafo introduced its new product FreedomBox based on combination of Product DNA and logistics. FreedomBox by Lalafo is a fully managed service for private people that allows a person to request a box delivered to a specified address, a person can put any items they would like to get rid of in the box. The box is delivered to the processing centre where the items are sorted, photographed, described, priced and listings created. After the items are sold, the money is transferred to the owner.

Lalafo is currently active in 4 markets in 2 of which it's profitable.
SPEAKER INFORMATION

Christian Faes
Founder & CEO

PRESENTATION TOPIC

Taking the UK mortgage market product by product - a £300 billion/year opportunity

SHORT BIOGRAPHY

Christian started his career as a real estate lawyer in Australia with Allens Arthur Robinson. He was subsequently a partner at a boutique law firm and founded a mezzanine mortgage finance business. He has also practised as a securitisation lawyer at Clifford Chance and in-house legal counsel at Deutsche Bank, both in London. In 2008, Christian co-founded Montello, the leading UK bridging finance lender, before spinning it out to create LendInvest in 2013.

Christian is a keen advocate for the fintech sector, as well as an active supporter and early investor in several startups, including Seedrs, Crowdcube, Plentific and Onfido.

BUSINESS OVERVIEW

LendInvest is the UK’s leading marketplace for property finance and one of Europe's largest non-bank mortgage lenders.

LendInvest has raised more than £1.8 billion (2 billion Euro) from investors ranging from individuals to global financial institutions including Citigroup, HSBC and Nomura. The company lends short-term property finance and buy-to-let mortgages and will launch its first homeowner mortgage product in the coming months.

LendInvest's proprietary technology creates a better customer experience for both borrowers and investors. It allows LendInvest to automate workflows and efficiently allocate capital to loans, to make the process of borrowing mortgage finance faster and simpler than it has ever been.

LendInvest was named Digital Innovation Award Winner at the Sunday Times Tech Track 100 Awards.
LN-CC is a men's and women's innovative retail concept offering an original mix of luxury clothing.

Lumen is a device and app that measures your metabolism through the breath.

**KEY CORPORATE FACTS**

- **Headquarters**: Tel Aviv, Israel
- **Active Markets**: Belgium, Switzerland, Czech Republic, Germany, Denmark, Spain, Finland, France, United Kingdom, Greece, Ireland, Israel, Italy, Netherlands, Norway, Portugal, Sweden, Turkey
- **Employees**: 26-50
- **Ownership**: Financial Investors
- **Total Funding**: € 14m

**BUSINESS OVERVIEW**

Founded in 2014, Lumen's vision is to revolutionize the way we approach health by making nutrition personalized and dynamic. Lumen empowers individuals to take a hyper-personalized, long-term approach to their nutrition and health goals, based on their own real-time physiological data.

We are a team of scientists, engineers, and designers, building Lumen - a wellness company that enables people to understand and improve their metabolic health so they can reach their health and wellness goals.

We developed a handheld device and app that measures your metabolism daily, with a single breath, and tells you what metabolic fuel your body is currently using (Carbs Vs. Fats) - and what to do about it.

The Lumen system (app) guides people to make smarter choices about the foods they eat, their workouts and other lifestyle decisions they can take, helping them lose weight, build fitness, prevent diseases and above all, improve their metabolic health.
Chris Morton
CEO & Co-Founder

Lyst is a fashion search platform, used by 104 million shoppers each year to find the items they love and decide what to buy. More than 6 million products from over 12,000 brands and stores including Burberry, Fendi, Gucci, Prada and Saint Laurent can be accessed through our single search bar and app, offering shoppers convenience and unparalleled choice.

When a shopper finds something they love on Lyst, we refer them directly to the brand or store's website to complete their purchase. Lyst does not hold inventory or fulfill orders. Instead we match demand with supply, enabling our brand partners to retain full control of their pricing, as well as owning the customer relationship and experience.

Lyst was founded in London in 2010 by Chris Morton and Seb Trepca and has raised more than $90 million funding to date. Investors include LVMH, Groupe Arnault, 14W, Balderton, Accel Partners and Draper Esprit.
Marfeel is an ad tech platform that revolutionizes the way publishers create, optimize and monetize mobile websites. Marfeel developed a proprietary technology that analyzes publishers’ unique audience – user habits, behavior and usage patterns- and dynamically adjusts the mobile site layout, to address these, which results in maximizing readership levels, engagements, pageviews, loading time and ultimately- ad revenue. Marfeel's UX technology is designed to automatically update mobile content, reflecting any changes taking place on the desktop site, so that content is consistent across all channels, eliminating any need of IT support. All updates are done via the cloud, making the maintenance of mobile sites simple, user-friendly, and cost-effective for publishers.

Marko Wenthin
CEO

PRESENTATION TOPIC

SME banking and business management platform

SHORT BIOGRAPHY

Marko is CEO at Penta, a leading SME banking platform in Europe. He started his career with an apprenticeship in Deutsche Bank. There he spent 16 years in many different positions in retail, corporate and investment banking. Out of his 16 years he spent 10 abroad, in Argentina and in Poland. In Poland he became the youngest Board member of a bank in Poland at the age of 30 and acted as COO overseeing IT, operations, back and middle-offices. In his mid 30s he changed his corporate career for an entrepreneurship one. He founded a couple of SaaS businesses and even an helicopter airline which due to the financial crisis of 2008 had to be shelved briefly before starting operations. He helped Asseco, one of the largest IT software companies in Poland to expand in Western Europe and acted as non exec Board member in a couple of the acquired companies. In 2009 he created Sofort Bank, sister company of SofortÜberweisung, which later on was sold to Klarna. Sofort Bank became Deutsche Handelsbank. In order to bring banking to the next level he co-founded solarisBank and defined Banking as a platform in the real world.

Prior to building and scaling Raisin, Tamaz has spent 10 years with McKinsey & Company, the last 3 years as Principal leading also McKinsey Savings and Investment products Service Line for EMEA countries. He served some of the very largest retail, universal and wholesale banks throughout Europe and in Asia.

Tamaz holds a PhD in agricultural economics, graduated with honors in law (both from University of Giessen) and international economics (from Tbilisi State University).

BUSINESS OVERVIEW

Raisin (also known as WeltSparen) is the leading pan-European savings and investment marketplace connecting retail customers with banks looking to expand or diversify their deposit reach. We are available in English across Europe and operate country-dedicated platforms in Germany, France, Spain, the United Kingdom, the Netherlands and Austria. Raisin is one of the leading fintech companies in Europe and has been featured on The FinTech50 list of the top 50 fintechs across Europe in 2016, 2017 and 2018. Our platforms are the #1 online marketplace for term deposits worldwide with more than 180,000 satisfied customers and exceed €13 billion in deposits invested via the Raisin platforms. Through our partnership with Vanguard and BNP Paribas we also offer a broad range of cost-effective ETFs.

READ MORE
Readly is a flat rate subscription service giving users access to thousands of magazines in one app.

Founded: 2013
https://readly.com/

SPEAKER INFORMATION

Maria Hedengren
CEO

PRESENTATION TOPIC

The Future of Magazines

SHORT BIOGRAPHY

Maria Hedengren joined Readly as CEO in spring 2019, bringing more than 20 years of experience from global finance and business management to the company. She has led both private and public technology companies and has a proven track record of scaling companies internationally.

Before Readly Maria was the CFO of iZettle during a very exciting time for the company. One of her major accomplishments was taking the company through the process of becoming ready for, and approved by NASDAQ, for a planned IPO in May 2018. iZettle was acquired by PayPal for USD 2.2 billion only a day before the prospectus was due to be published.

Maria has also served as CFO of the publicly listed NetEnt AB, a platform and games provider to some of the world’s largest casino and sports betting operators.

| Total Funding | € 60m |

BUSINESS OVERVIEW

Readly offers a modern digital subscription service for magazines, giving users unlimited access to thousands of national and international magazines, all gathered in an app – for one monthly fee. During the past 12 months about 80 million magazines have been read on Readly.

Since its launch 2013, Readly has seen tremendous growth and is often referred to as the ‘Netflix’ or ‘Spotify’ of magazines. In 2018 revenue grew by an amazing 54% reaching 19M € and the company has seen the number of subscribers double year-on-year. Financial Times has placed Readly in the top 200 of the fastest growing companies in Europe.

In addition to all the consumer benefits, Readly offers a powerful, risk-free route to market for publishers who can also track and analyse how their content is being consumed. The number of well-renowned publishers who have their content on Readly is growing. Our broad portfolio of high-quality content come from more than 800 trusted publishers and editors. With media houses as Hearst, Condé Nast, Bonnier, Bauer and Axel Springer among others.

Spotcap is an online SME lender that helps major institutions digitalise lending with its technology

Founded: 2014
https://www.spotcap.com/

SPEAKER INFORMATION

Jens Woloszczak
Founder & CEO

PRESENTATION TOPIC

Spotcap, digitalising SME lending

SHORT BIOGRAPHY

Jens Woloszczak has worked as a consultant for McKinsey & Company for several years where he focused on the commercial banking sector. Working for major European banks, Jens experienced the outdated approach these banks took towards working with businesses. Jens saw an opportunity in the industry and founded Spotcap, with the aim of changing the banking landscape by using the latest technologies to address the financing challenges faced by small businesses. Jens holds a PhD from WHU – Otto Beisheim School of Management, as well as a degree in industrial engineering and business studies from the Technical University of Berlin, and studied economics at Cass Business School.

BUSINESS OVERVIEW

Spotcap empowers SMEs with tailored finance, allowing them to focus on what really matters—their business. The company has developed a unique proprietary lending platform and credit algorithm which offers a fast and superior assessment of the real-time performance of SMEs.

Led by Founder and CEO Jens Woloszczak, Spotcap is headquartered in Berlin, Germany, and operates as a direct lender to SMEs in the United Kingdom, the Netherlands, Spain, Australia and New Zealand. The company has entered into a strategic partnership with BAWAG Group to offer same-day financing to Austrian SMEs and now offers its proprietary technologies and models to major institutions, financial or otherwise, under its Lending-as-a-Service proposition. Spotcap has raised €100 million euros in funding and is backed by a number of high profile investors including Rocket Internet, Finstar Financial Group, Access Industries, Holtzbrinck Ventures and Heartland Bank. The growing team currently consists of more than 120 employees globally.

---

**SHORT BIOGRAPHY**

Björn is the co-founder and CEO of Stocard, a leading mobile wallet with over 35 million users. Before founding Stocard, Björn studied at the University of Mannheim and the London School of Economics and worked at McKinsey & Company. To start Stocard he discontinued his PhD studies.

---

**BUSINESS OVERVIEW**

Stocard is a leading mobile wallet already used by more than 35 million people and growing by more than 1 million users every single month. One reason why people love Stocard is that the app goes beyond payments and creates an exciting experience around shopping. In addition to paying with the Stocard app, users store all their loyalty cards in the app and collect all their rewards at every store by just showing the app. Besides, consumers receive personalized offers from their favorite retailers, see their points balance and status level in real-time, and can sign up for new shopping cards.

Stocard will continue to re-bundle various industries in one wallet (think for example financial services, such as consumer credit) and bring them to its millions of users. During the next years, the company wants to continue its growth and offer its one-stop wallet - including financial services, shopping, and more - to 100 of millions of customers in Europe, Northern America, and APAC and shape the future of how people shop and access financial services.

The role of AI in understanding consumer behaviour

Tugce Bulut
Founder & CEO

Tugce is passionate about the power of data and the positive change it can bring to the world. She is a published author and Master's graduate from the University of Cambridge, specialising in poverty alleviation and global living standards. Before founding StreetBees, she spent six years as a strategy consultant advising technology and consumer companies on how to accelerate growth in international markets.

StreetBees is a London-based global intelligence platform that reveals how people behave, and why, by analysing real-life moments collected from its worldwide users on an always-on basis.

Over 2.5 million users – or ‘bees’ – across 150 countries worldwide use the chat-style Streetbees app to share moments from their daily lives via videos, photos and text, giving as much or as little information as they like. Through applying advanced natural language processing technology to the results, Streetbees uncovers not just what they do, but also why they do it, and what drives them – and predicts what they may do next.

This allows Streetbees' customers – who include Unilever, PepsiCo, BBC World Service, Vodafone and L'Oreal – to receive rich insights into communities anywhere in the world at an unprecedented scale and affordable cost, helping them deeply understand new or unfamiliar markets. Using the Streetbees platform, world-leading brands are able to make more informed and accurate decisions about consumer behaviour, and predict future trends with confidence.
Ricky Knox is a serial entrepreneur and investor. He has built five technology disruptors in fintech and telecoms, each of which also does a bit of good for the world. Ricky is currently building the customer champion digital bank of the future, but has previously disrupted remittances with Azimo and Small World (the 6th largest remitter in the world), FX and Mobile Telecoms. Ricky is also Managing Partner at Hexagon Partners, a specialist private equity firm which invests in Financial Technology.

Tandem is the Good Bank. Built with over 11,000 cofounders, Tandem is an all-digital bank, partnering with its customers to liberate them from money stress, reinventing banking by placing the customer at the heart of everything they do. As the Good Bank, Tandem are motivated by making the world a better place, with a goal to make their customers life-rich. Tandem is here to save their customers money on the things that matter to them. The Tandem app uses innovative intelligence to proactively work with customers showing them what they can afford, helping them to borrow better, budget for upcoming payments and save on bills, avoiding sneaky fees and forgotten subscriptions – giving them more space to spend on life. Founded by Ricky Knox and Matt Cooper, Tandem has attracted funding from investors including the Omidyar Network and Route 66 and, in June 2016, responded to a call by Co-Founders asking for a way to invest through a crowdfunding campaign. Tandem Money Limited is authorised and regulated by the Financial Conduct Authority.

BUSINESS OVERVIEW

Thread helps people love how they look by giving them their own personal stylist. It’s all done online, is completely free to use, and we work with some of the top stylists in the industry. The site uses online stylists, as well as artificial intelligence (AI) and machine learning, to create a personalised way to shop.
SPEAKER INFORMATION

Sophie Hill
Founder & CEO

SHORT BIOGRAPHY

Education from Leeds & Harvard university. Sophie started her career in buying & merchandising roles at HQs of some of the leading fashion retail brands. This exposure to retail inspired her to found Threads in 2010. Threads uses unique technology to create a new world of retail. With social media & content, instant messaging & strong brand partnerships Threads is the leader in what they define as luxury chat commerce. Sophie is now dedicated with her team to continue to lead in this space and pioneer the next generation of retail.

BUSINESS OVERVIEW

Threads is pioneering the best luxury shopping experience in the world. We inspire our highly-engaged social media community through beautiful content featuring the latest, most desirable luxury items. We talk to our loyal clients directly via chat-based media to place orders; these can then be sent anywhere in the world – fast. In short, we've closed the online-offline shopping loop and we're changing how people buy luxury fashion.

BUSINESS OVERVIEW

TravelPerk is a next generation travel booking and management platform pioneering the future of corporate travel. TravelPerk offers the world's largest travel inventory alongside powerful management and reporting features, allowing companies of any size to effortlessly manage the entire process in one single place - simple, powerful and 100% free.

The platform includes integrations to the world's leading travel providers (e.g. Skyscanner, Expedia, Amadeus, Booking.com), a powerful control center for user management, visibility, policies, invoicing and reporting, and is additionally backed by a 24/7 travel support concierge service that helps users before, during and after a business trip.

Thanks to state-of-the-art technology, "consumer-level" design and a revolutionary business model that is 100% free for the users, the company is transforming the business travel experience for both travelers and administrators worldwide. Backed by world-class investors including Spark Capital, investors in Slack, Trello and Twitter, TravelPerk now has the buy-in to take the pain out of business travel with an all-in-one solution that just works.

BUSINESS OVERVIEW

Ultrahaptics is the world leader in mid-air haptics. Our breakthrough haptic technology uses ultrasound to create rich, three-dimensional shapes and textures that can be felt, but not seen.

With our technology, tools and expertise you can add amazing haptics to virtual objects, develop immersive holographic interfaces, and augment gesture control with natural tactile feedback. You can unlock the true potential of touch.

We believe mid-air haptics will revolutionise how we interact. We are on a mission to create a safer, cleaner and more magical world.

BUSINESS OVERVIEW

As the only AI company exclusively dedicated to media, Vilynx combines its industry expertise, best-in-class technologists and unique self-learning, multimodal "brain" to improve content recognition and audience engagement. Utilizing its industry-leading metadata tagging capabilities and multimodal processing, the Vilynx brain personalizes user experience on publisher websites, mobile/OTT apps and optimizes content creation and distribution, in addition to driving automated previews, recommendations and smart search. In essence, the Vilynx brain teaches itself as it watches video, listens to audio and reads text. It employs visual recognition, natural language processing, text analysis and more to classify and contextualize data precisely, all the while constantly building upon its own store of accumulated knowledge. Transcending rote rules and simple algorithms, the brain analyzes relationships and associations, allowing for significantly more metadata tagging fields and a deeper understanding of content.

BUSINESS OVERVIEW

Zebra Medical Vision, the only company that provides an All-In-One (AI1) Solution. Access all of Zebra's AI solutions integrated into radiologist workflow at an affordable, fixed annual fee.

Zebra Medical Vision's Imaging Analytics Platform allows healthcare institutions to identify patients at risk of disease and offer preventative treatment pathways to improve patient care. The company's AI solutions analyze millions of clinical imaging data in real-time, detecting various medical indications, enabling it to be the only AI Medical Imaging company with such a wide range of products.

One such AI solution is Zebra's Bone Health Package, deployed successfully at Oxford University Hospital to detect vertebral compression fractures in order to increase patient flow into Oxford's Fracture Liaison Service. Since deployment, over 100 patients have commenced fracture prevention after being flagged by the algorithm. An additional AI solution is breast cancer oncology solutions that identify suspicious lesions on 2D mammograms and present findings at the point of care.

Introsight works with a select group of high profile: sophisticated global investors, private or family-run enterprises, best-in-class brands and companies, early-stage investment firms, and non-profit advocacy and research organizations.

Tabbiner is a Senior Advisor at the Milken Institute, where she has worked for six years. Tabbiner was responsible for launching the Milken Institute in the Middle East and for the inaugural Milken Institute MENA Summit that took place in Abu Dhabi in February 2018. Tabbiner continues to focus on the Middle East and North Africa and is responsible for accelerating the Institute's relationships with influential leaders across public and private sectors in the MENA region. Prior to launching the MENA initiative, Tabbiner focused on international development, family office program development, speaker recruitment and driving new sponsorship for the Institute.

Tabbiner also serves as an Advisor to Mubadala Capital's European Venture business, part of the Abu Dhabi investment fund; an Advisor to Stone Canyon Industries, a global industrial holding company; an Advisor to Global Thermostat, a technology...

Jonathan Medved

Founder & CEO

**PRESENTATION TOPIC**

When will the disruptors be disrupted?

**SHORT BIOGRAPHY**

Jonathan Medved is a serial entrepreneur and according to the Washington Post (2007) “one of Israel’s leading high tech venture capitalists”. In the 2008 NY Times Supplement "Israel at 60" Medved was named one of the top 10 most influential Americans who have impacted Israel.

Medved is the founder and CEO of OurCrowd, the world's largest equity crowdfunding platform for accredited investors which has raised more than $70M for 51 portfolio companies since its launch in February 2013. Bloomberg Business week said that OurCrowd “has blown up the exclusivity around tech fundraising” and The Jerusalem Post added that “It has taken OurCrowd only a matter of months to become one of Israel's most active funds”. TheStreet.com said that OurCrowd is "Crowdfunding for Real Investors."

Prior to OurCrowd, Medved was the co-founder and CEO of Vringo (Nasdaq:VRNG) and the co-founder and General Partner of Israel Seed Partners, with $262M under management.

**BUSINESS OVERVIEW**

OurCrowd is a global venture investing platform that empowers institutions and individuals to invest and engage in emerging companies. The most active venture investor in Israel, OurCrowd vets and selects companies, invests its capital, and provides its global network with unparalleled access to co-invest and contribute connections, talent and deal flow. OurCrowd builds value for its portfolio companies throughout their lifecycles, providing mentorship, recruiting industry advisors, navigating follow-on rounds and creating growth opportunities through its network of multinational partnerships.

With $1.1 billion of committed funding, and investments in 180 portfolio companies and 18 venture funds, OurCrowd offers access to its membership of 33,000 individual accredited and institutional investors, family offices, and venture capital partners from over 183 countries to invest alongside, at the same terms. OurCrowd's portfolio is diversified across sectors and stages, ranging from seed and series A through late stage and pre-IPO firms. Since its founding in 2013, OurCrowd portfolio companies have been acquired by some of the most prestigious brands in the world, including Uber, Canon, Oracle, Nike, and Intel.
